

# MICKEY VAN BODIES:

---

The best in the business,  
for whatever business you're in.

DESIGNED TO WORK | BUILT TO LAST

# We don't just design bodies and trailers, we design solutions.

Mickey's unique Service Delivery Model combines engineering expertise with over a century of vehicle manufacturing innovation to turn your requirements into delivery solutions for any type of product. It all starts with a clear understanding of the customer's business objectives and a detailed assessment of the vehicle's operational environment. The final product exceeds expectations for strength, functionality, quality and appearance.

## STANDARD FEATURES

---

### Rear Frame

Mickey uses stainless steel components on its rear frame for rust-free, paint-free maintenance

- Rear sill is 10 gauge stainless steel with integral drain trough and drain holes
- Rear corner posts and header are 12 gauge stainless steel, 4" wide at rear
- Exterior stainless steel gussets at top prevent frame from racking
- Flush mount LED lights to prevent damage to lights

### Roof

- Roof is .032" aluminum sheet with 1" high "anti-snag" roof bows

### Rear Door

- 3/4" thick premium, pre-painted wood door with 2" nylon rollers, locking cam lock, rubber side and top seals

### Lights

- Meet all MVSS-108 requirements
- All exterior lights are recessed LED

### Subframe

- 3" I-beam steel cross members on 12" centers
- Steel front sill reinforces front wall to subframe
- 4" I-beam steel longitudinals welded to cross members, under coated same as cross members

### Floor

- 1-1/8" thick laminated hardwood floor boards ship-lapped at joints, undercoated
- Rear end of floor has steel threshold close-out angle attached to floor

### Front Wall

- Five (5) 1-3/8" deep galvanized steel Z-posts on 16" centers

### Side Wall

- 1-1/4" deep galvanized steel Z-posts on 16" centers
- Top & bottom rail is high-strength aluminum extrusion
- Exterior side sheets are .040" aluminum pre-painted white

Mickey Van Bodies are available with a variety of lift gates and ramps, bumper types and doors.

Chicago Style Step Bumper

## About Mickey

Mickey Truck Bodies has been privately owned and operated by the Mickey family since the company was started in High Point, NC in 1904. Today Mickey manufactures all-aluminum truck bodies and trailers for customers throughout the U.S. and in more than 50 other countries. Over the past decade, the company has invested millions of dollars automating its manufacturing facilities and processes to produce the most technologically-advanced bodies and trailers in the world.

# MICKEY TRUCK BODIES

---

The most versatile manufacturer of specialized truck bodies and trailers in the world.

We are the North American market leader of sideload style bodies for beverages and batteries.

We design and build specialized units for any and all industries, including construction, municipalities and road service calls.

Mickey manufactures more full-service vending bodies than any other company in the U.S.

Family-owned and operated since 1904.
