

ENGINEERING AND DESIGNING SOLUTIONS

Mickey Truck Bodies has been owned and operated by the Mickey family since 1904. During that time, we've been credited with some of the most important new products and unit feature breakthroughs in our core customer industries. In dry freight van bodies, our commitment to quality has redefined the industry standards for premium features, such as 1-1/8" thick laminated hardwood floors, full-width front sill for front wall reinforcement, and premium roll-up doors with 2" rollers and full perimeter weather stripping.

Custom design. At Mickey, we don't sell what we manufacture, we manufacture what you need. Whether it's a customized cargo restraint system, specialized bumper, lift gates or ramp system, our van bodies are designed to meet your specific needs.

STANDARD FEATURES

SUBFRAME

3" I-beam steel cross members on 12" centers under coated with Tectyl 1560 pigmented primer. 12-gauge steel clips welded to ends of cross members and fastened to aluminum side rails with two 5/16" aluminum solid rivets per clip. Steel front sill 13" wide, 4" high. 10-gauge rear sill, 4" high. 4" I-beam steel longitudinals welded to cross members and under coated same as cross members.

FLOOR

1-1/8" thick laminated hardwood floor boards ship-lapped at joints with crusher bead, under coated on bottom side with black acrylic undercoating. Floor attached to cross members with two quarter-inch countersink screws per board alternating on each side of cross members flange. Rear end of floor has steel threshold close-out angle attached to floor.

FRONT WALL

1-3/8" deep galvanized steel Z-posts on 14" centers. Bottom front rail is high strength aluminum extrusion 7-5/16" high. Top rail is high-strength aluminum extrusion 6-3/16" high. Exterior side sheets are .040" aluminum pre-painted white. Sheets are fastened together to Z-posts with 3/16" solid aluminum rivets.

SIDE WALL

1-3/8" deep galvanized steel Z-posts on 16" centers. Bottom rail is high-strength aluminum extrusion 7-5/16" high. Top rail is high-strength aluminum extrusion 6-3/16" high. Exterior side sheets are .040" aluminum pre-painted white. Sheets are fastened together to Z-posts with 3/16" solid aluminum rivets.

REAR FRAME

Rear sill is 10-gauge galvanized steel with integral drain trough with drain holes. Rear corner posts are 10-gauge galvanized steel 4" wide. Top header is 12-gauge galvanized steel 4" wide at top, 2-1/2" wide at bottom, and 8" high. Header has integral channel rain trough at top and integral recessed light protection at back for I.D. and clearance lights.

ROOF

Roof is .032" aluminum sheet with 1-3/8" high "anti-sag" roof bows. Bows are cambered 3/4" on 24" centers. Roof sheet is attached to top rail with 3/16" solid aluminum rivets.

FRONT HOOD & CORNERS

Aerodynamically styled 3-piece front hood is aluminum rolled to 6-3/4" radius featuring cast aluminum corners with recessed marker light cavity and integral "wind-flow" groove.

REAR DOOR

Whiting 3/4" thick premium wood door with 2" nylon rollers, locking cam lock, rubber side and top seals.

LIGHTS

Lights and reflectors meet all MVSS-108 requirements. Chassis lights used as Stop/Turn/Tail lights.

Enterprise

Mickey Truck Bodies has earned an unshakable reputation for after-sales service and support, and our customers have the utmost confidence that we will be there for them before, during and after the sale.

We stand behind everything we sell with a rock solid 3-year warranty.

PARTS & SERVICE

Mickey Truck Bodies has long been recognized as the leading supplier of van body parts in terms of availability and service. We offer a large inventory of stock

parts for same-day shipping on all orders received by 2 PM, and all fabricated parts are shipped within one to three working days.

MICKEY RECONDITIONING AND SERVICE CENTERS

Mickey Truck Bodies has seven company owned and Mickey authorized freestanding Reconditioning & Service Centers in strategic locations throughout the country. Each of the seven facilities houses state-of-the-art equipment and fixtures to accommodate everything from minor repairs to major overalls, including computer controlled paint booths and quality control stations. All work is done completely in-house.

Mickey Truck Bodies is the largest and most advanced service and reconditioning provider in the business today.
