

On any given day, around the world, there are

---

**OVER 100,000 MICKEY TRUCK BODIES  
AND TRAILERS ON THE ROAD,**

---

delivering the products we enjoy and  
the services we rely on.

**WHY SO MANY?**

BECAUSE THEY'RE

## DESIGNED TO WORK BUILT TO LAST

Mickey Truck Bodies has been privately owned and operated by the Mickey family since the company was started in High Point, NC in 1904.

Today Mickey manufactures all-aluminum truck bodies and trailers for customers throughout the U.S. and more than 50 other countries. The company continuously invests in technology to produce the most advanced bodies and trailers in the world.

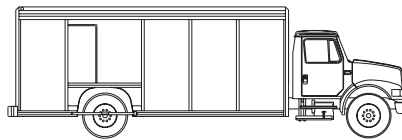

## We don't just design bodies and trailers, we design solutions.

Whether your delivery system requires side or rear loading/unloading, we offer solutions as versatile as they are durable. Mickey bodies and trailers bring together the most “customer-driven” features and options available from any manufacturer, including a wide range of custom bay and shelving configurations and a variety of heating and cooling systems.

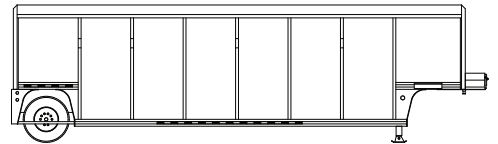

**Note:** Not all bay configurations are shown. Mickey engineers will work with customers to meet customized specification requirements.

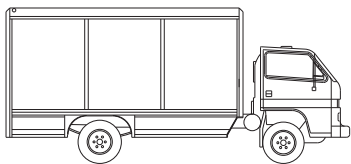

4 Bay Mini

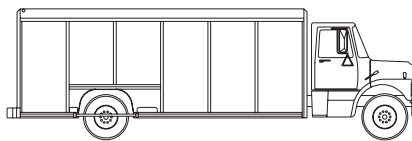

10.5 Bay Drop Frame

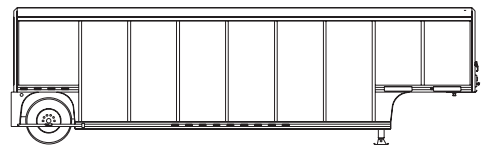

16 Bay Single Axle/Extended Kingpin

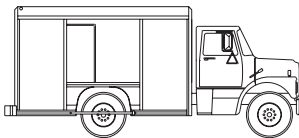

6 Bay Mini

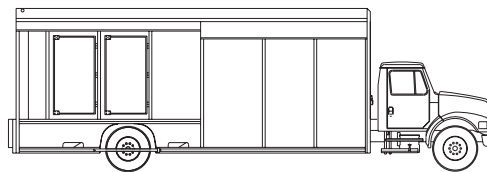

12 Bay Drop Frame

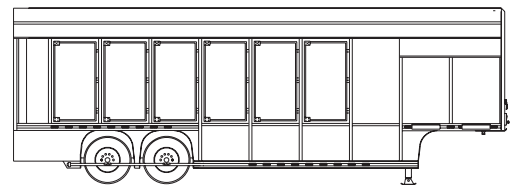

18 Bay Single Axle

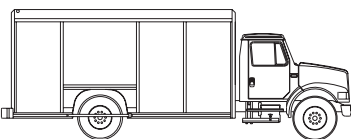

6.5 Bay Drop Frame

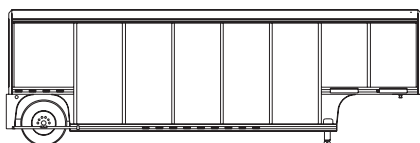

12 Bay Single Axle

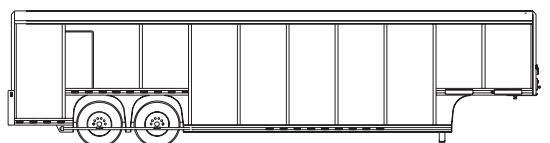

18 Bay Tandem Axle

8.5 Bay Drop Frame

16 Bay Single Axle

20 Bay Tandem Axle

## Product Features & Benefits

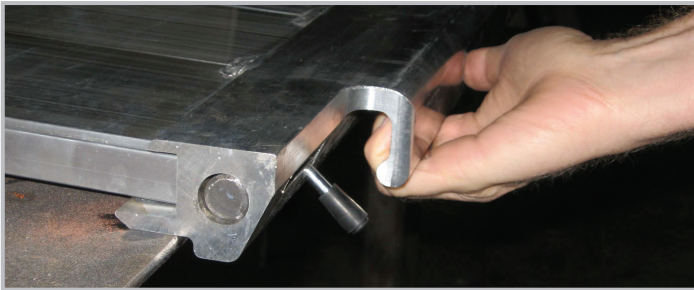

All-aluminum machine castings (vs. sand castings) are “sleeve fitted” to rub rail, door tracks and door post to form a stress-free connection for strength and durability.

Dropped chassis frame

- Realignment of counterbalance cable makes our roll-up door the lightest, easiest to operate in the business. Patented All Weather Door-Loc™ system is integrated into castings for greater durability.
- Lowest, working profile in the industry improves driver comfort, safety and productivity.
- Industry’s first 1-piece rear and front skins enhance decal appearance and eliminate costly repairs from stress cracks and loose rivets.
- Strongest non-override bumpers on the market.
- Integrally-stiffened 1-piece floor construction flexes with the body or trailer for longer life.
- Strongest Drop Frame available — built to withstand the toughest road conditions.

## Our Most Popular Ergonomic Options

“Easy Shift” system with protected pin-and-spring mechanism for effortless shelf adjustments. Built-in hand grip allows driver to comfortably hold shelf while unloading.

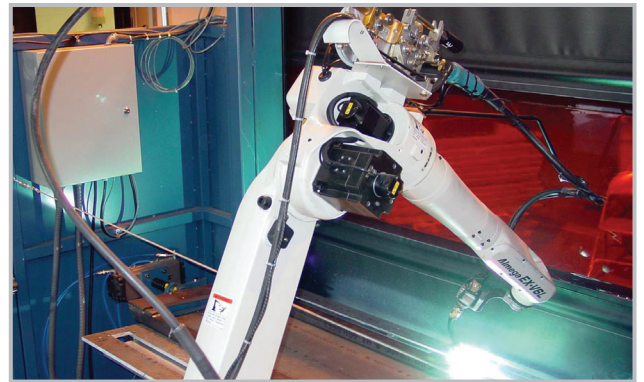

“Lock-Latch” retaining system holds hand cart in place conveniently and securely. Requires less time to operate than “bungee” systems.

### Also Available:

- In-Rail Pull-Out Step
- Non-Skid Rail
- Rear Vision Camera
- Keg Floors

## Advanced Technology

Almegra EX-V6L (“Big AL”), a robotic welder, enhances product quality and improves manufacturing productivity and efficiency.

SHEAR GENIUS® integrates right angle shearing with high performance punching in a single machine. Programmable system reduces sheet material consumption and decreases manufacturing time.

**Mickey Truck Bodies stands behind everything it sells with a “Rock Solid” 12-year warranty, the best in the business!**

Every completed body and trailer is brought into Mickey’s “Winner’s Circle” where they are checked for welds, mounting, electrical, features and options, painting and decals. It’s part of our 100% quality commitment.

Mickey’s automated, environment-controlled paint facility is totally immune to conditions, dust, dirt and other contaminants which can compromise the quality of the application.

## Reconditioning Division

Mickey Truck Bodies owns and operates 4 full-service regional Reconditioning /Service Centers throughout the U.S. The Centers provide major overhauls as well as minor cosmetic repairs for all makes and models, including competitive units.

### Services include:

- Paint & Decal Application
- Body & Trailer Stretching
- Truck & Trailer Equipment Installation
- Parts Replacement
- Chassis Refurbishing
- Cab Repair
- Fleet Appraisal
- On-Site Estimates
